

# SAFETY DATA SHEET

## Piston Power ATF-Syn 295

|                |                                |
|----------------|--------------------------------|
| Supplier       | Piston Power Chemicals CC      |
| Address        | P O Box 90<br>Desainagar, 4405 |
| Contact Person | Krish Andhee                   |
| Telephone      | +27215280013                   |
| Fax            | +27866110346                   |
| Date Issued    | 06 February 2019               |

### 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION

Product name: Piston Power ATF-Syn 295  
Product type: Oil for automatic transmissions  
Product safety guide: lubricants

### 2. HAZARD IDENTIFICATION

#### Injurious to health

No specific hazard under normal use conditions. Prolonged or repeated exposure may give rise to dermatitis. Used oil may contain harmful impurities.

#### Safety aspects

Not classified as flammable but will burn

#### Environmental danger

Not readily biodegradable. Expected to have high potential to bioaccumulate.

### 3. COMPOSITION AND INFORMATION ON INGREDIENTS

Blend of highly refined Synthetic oils and additives

On the basis of available information, the components of this preparation are not expected to impart hazardous properties to this product.

### 4. FIRST AID

#### General

In severe cases : Not expected to give rise to an acute hazard under normal conditions of use.

#### Inhalation

Do not normally give rise to harmful vapours. However, In the unlikely event of dizziness or nausea, remove casualty to fresh air. If symptoms persist, obtain medical attention.

#### Skin Contact

Slight to moderate irritation. In case of irritation remove contaminated clothing and wash affected skin with soap and water. If persistent irritation occurs, obtain medical advice.

#### Eye Contact

Slightly irritating on repeated and prolonged exposure. In case of eye exposure flush eye with copious quantities of water. Contact a doctor if irritation persists.

## **Ingestion**

Aspiration into lungs gives rise to intense local irritation. This is not likely to arise during normal use. If ingestion occurs, do not induce vomiting. Wash out mouth with water and obtain medical attention.

## **Medical Information**

Treat symptomatically. Aspiration into lungs may cause chemical pneumonitis. Dermatitis may result from prolonged and repeated exposure.

## **5. Hazards Identification**

Human Health Hazards: No specific hazards under normal use conditions.  
Contains mineral oil for which an exposure limit for oil mist applies  
Prolonged or repeated exposure may give rise to dermatitis.  
Used oil may contain harmful impurities.

Safety hazards: Not classified as flammable, but will burn.

Environmental hazards: Not readily biodegradable  
Expected to have a high potential to bio-accumulate.

Other information: Not classified as dangerous for supply or conveyance.

## **6. FIRE FIGHTING MEASURES**

### **Extinguishing Media**

Foam and dry chemical powder. Carbon dioxide, sand or earth should be used for small fires only.  
***Water in a jet must not be used.***

### **Fire and Explosion hazards**

Combustion is likely to give rise to airborne solids and liquid particulate and gases, including carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds

### **Special protective equipment**

Proper protective equipment including breathing apparatus must be worn when approaching a fire in a confined space.

## **7. ACCIDENTAL RELEASE MEASURES**

### **Personal precautions**

Avoid contact with skin. Wear impermeable gloves and boots. Nitrile rubber gloves.

### **Environmental precaution**

Prevent from spreading and entering into drains, ditches or rivers by using sand, earth or other appropriate barriers.

### **Method of cleaning up**

Small spills may be absorbed with sand or earth and removed to a suitable, clearly marked container for disposal in accordance with local regulations.

Large spills must be prevented from spreading by making a barrier. Reclaim liquid directly or by absorbing as for small spills.

## **8. HANDLING AND STORAGE**

When handling product in drums, safety footwear should be worn and proper handling equipment should be used.

Store in a cool, dry, well-ventilated place. Avoid direct sunlight, heat sources, and strong oxidising agents

## 9. PHYSICAL AND CHEMICAL PROPERTIES

|  |              |
|--|--------------|
| <b>Appearance</b>  | Red fluid    |
| <b>Kinematic Viscosity</b><br>@ 40°C cSt<br>100°C cSt<br>(ASTM D445) | 36.2<br>7.48 |
| <b>Density @ 15°C</b> kg/l<br>(ASTM D1298)                           | 0.851        |
| <b>Flash Point</b> °C<br>(COC), (ASTM D92)                           | 196          |

## 10. STABILITY/REACTIVITY

Stability: Stable  
 Conditions to avoid: Extremes of temperature and direct sunlight  
 Materials to avoid: Strong oxidising agents  
 Hazardous decomposition products: Hazardous decomposition products are not expected to form during normal storage

## 11. TOXICOLOGICAL INFORMATION

Toxicological data have not been determined specifically for this product. Information given is based on data on the components and the toxicology of similar products.

Acute toxicity – oral: LD50 expected to be above 2000 mg/kg  
 Acute toxicity – dermal: LD50 expected to be above 2000 mg/kg  
 Acute toxicity – inhalation: Data not available.  
 Eye irritation: Expected to be slightly irritant  
 Skin irritation: Expected to be slightly irritant  
 Respiratory irritation: If mists are inhaled, slight irritation of the respiratory tract may occur.  
 Skin sensitisation: Not expected to be a skin sensitiser.  
 Carcinogenicity: Product is based on mineral oils of types shown to be non-carcinogenic in animal skin-painting studies.

## 12. ECOLOGICAL INFORMATION

Eco-toxicological data have not been determined specifically for this product. Information given is based on a knowledge of the components and the eco-toxicology of similar products.

Mobility: Liquid under most environmental conditions.  
 Floats on water  
 If it enters soil, it will absorb to soil particles and will not be mobile.  
 Persistence/degradability: Not readily biodegradable  
 Major constituents are expected to be inherently biodegradable, but the product contains components that may persist in the environment.  
 Bio-accumulation: Has the potential to bio-accumulate.  
 Eco-toxicity: Poorly soluble mixture  
 May cause physical fouling of aquatic organisms.

### 13. DISPOSAL CONSIDERATIONS

Waste disposal: Recycle or dispose of in accordance with prevailing regulations to a recognised collector or contractor.  
The competence of the contractor to deal satisfactorily with this type of product should be established beforehand.  
Waste product should not be allowed to contaminate soil or water, or be disposed of into the environment.

Product disposal: As for waste disposal  
Container disposal: 200 litre drums should be drained and returned to the supplier or sent to a drum reconditioner without removing or defacing markings or labels.

### 14. TRANSPORT INFORMATION

|                 |               |
|-----------------|---------------|
| SABS 0228 Class | Not regulated |
| IMDG Class      | Not regulated |
| IATA-DGR Class  | Not regulated |

South African Transport Legislation : See SABS 0228, 0229, 0230, 0231, 0232-1, 0232-3, 1398, 1518.

Not dangerous for conveyance under UN, IMO, ADR/RID and IATA/ICAO codes.

### 15. REGULATORY INFORMATION

EC classification: Not classified as dangerous under EC criteria

### 16. OTHER INFORMATION

MSDS Version Number : 2

MSDS Effective Date : 1 November 2012

#### Disclaimer

All information and instructions in this MSDS are based on the current state of scientific and technical knowledge at the date indicated on the present MSDS and are presented in good faith and believed to be correct. This information applies to **the product as such**. It is the responsibility of persons in receipt of this MSDS to ensure that the information contained herein, even when supplied to third parties, is passed onto and is properly read and understood by all people who may use, handle, dispose or in any way come in contact with the product. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by use of this material. Health and safety precautions and environmental advice noted in this data sheet may not be accurate for all individuals and/or situations. It is the responsibility of the user to comply with applicable National, International and local laws and regulations.
